Dear _____,

You need to hear Jenna's true story. It will change your life, like it did mine. "I'm getting an abortion," Jenna announced as her nurse prepared to administer a pregnancy test. Jenna was convinced nothing could change her mind—not even hearing her baby's heartbeat.

Girls with real stories just like Jenna's walk into Pre-Born! Pregnancy Clinics every single day. Tragically, they all have the same grim goal—to abort their preborn babies.

The good news is that because of faithful friends like you, Pre-Born! has been able to help thousands of these girls choose life instead. We prayed we could do the same for Jenna this time.

Jenna revealed more heartbreaking information when she told her nurse that she had purchased abortion pills from her neighbor, preparing to get on with her plan. Only time was standing in her way of taking the pills and ending her baby's life.

That is when her nurse shared the gospel of Jesus Christ with Jenna. To the nurse's surprise, Jenna was a walking Bible! She quoted verses, shared biblical principles, and talked about her life in light of God's Word. The nurse asked Jenna what God thought about abortion—and that's when truth began to take root in Jenna's heart and mind.

Her ultrasound changed a deathly outcome into excitement at the sight and sound of new life. Jenna immediately surrendered her thoughts about abortion the moment she saw her baby moving and heard the heartbeat. Praise God, she chose life for her preborn baby!

Jenna's baby is alive today because you do care and have cared. As Pre-Born! celebrates our 15th Birthday, we celebrate the life of Jenna's baby, along with the 169,027 babies and 51,625 souls saved.

We could never do it without your love and support and we thank you for being faithful to God's admonition to "defend the weak and the fatherless" Psalm 82:3.

The battle against abortion is ongoing and still very real. Will you consider giving once again so moms like Jenna will have the opportunity to choose life?

Dan Steiner
